DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Deering (6956576) teaches a similar method of acquiring an object, generating one or more shifted instances of the object and blending one or more shifted instances of the object to produce a blended object. (Col 29 line 56- Col 30 line 18, Col 32 lines 32-40, Fig. 26) Furthermore Lengyel ("Rendering with Coherent Layers") teaches objects blended to give the illusion of motion can be associated with texture. (p. 1 introduction, p. 1 Fig. 2, p. 2 Section 1.1, p. 3 section 2.3, p. 4 section 3.2 and p. 4 section 3.4, p. 4 section 3.2 and p. 4 section 3.4) In addition Becker (6392675) teaches graphical user objects may creat an illusion of motion. (Col 4 lines 5-10, Col 5 lines 4-11, Fig. 2 and Fig. 4) However, no prior art references anticipate or suggest the limitations of "***shifting the said blended texture to obtain a blended and shifted texture; applying the blended and shifted texture to the graphical user interface object to create a graphical user object; blending the graphical user object with a background; and displaying in succession the blended and shifted textures as applied to the graphical user object to create the illusion of motion***" in combination with other claim limitations of claims 6 and 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
